No Government Aid For Savannah Bridge

SUPERVISOR KING RECEIVES
LETTER FROM CON-
GRESSMAN AIKEN

NEVER BEEN DONE

States no Case on Record Where
Government Built or Aided
in This Matter.

Supervisor J. Mack King has received the following letter from Congressman Wyatt Aiken in regard to government aid in building the proposed bridge across the Savannah river. The letter is self explanatory.

"16, December, 1915.

"Dear Sir:—

"Your letter 6th instant relative to obtaining aid from the United States government for the purpose of building a bridge across the Savannah river has been received. The letter would have been acknowledged earlier but it has been forwarded about from here to Abbeville and back until this is the first opportunity I have had to write you. There is no case on record where the government has built or aided in building a bridge across a navigable stream, or any other kind, unless the government owned it. If the government owns any at all it is where bridges are on government property such as the Yellowstone Park, etc. There have been many desperate efforts made to get aid from the government in building a bridge across the Potomac river at Washington but without success. All that congress can do is to grant the authority for the building of a bridge across a navigable stream. If you wish a bill of that character passed let me know and I will have it done.

"Yours very respectfully,
"Wyatt Aiken."

A Waiter's Dual Personality.

In the January American Magazine is a clever story to Sophie Kerr in which there is an amusing sketch of the Gallic love for acting. A French waiter had been disguised and introduced as a nobleman by a social climber who promised to pay the waiter five hundred dollars for the job. The waiter acted the part so brilliantly that his employer, when the guests had gone, was about to double the amount.

"But the count put up a protesting hand. 'Mr. Uctormy he began, 'when I agree to come here, I thought it would be good fun to play the noble gentleman, an' 'ave so much money beside for an evening play. But now I want to tell you—do not give me that money. As I 'ave play the count, I 'ave received quite a new idea. No wait gentleman would take money for to oblige an' amuse his friend—yes? I want to feel that tonight I was truly the gentleman; an' so I cannot take you so kind an' generosity check. But tomorrow his face broke into his engaging smile—'tonight, w'en the Count de Rochefort, I 'ave gone to his own country an' Victor is back in the Walnut room of the 'Otel Palais, I expect that Victor will 'ave no seelily scruple."

Philippine Boys Like Baseball.

That Moro youngsters are now inclined to settle their differences with boxing gloves, instead of appealing, as did their fathers before them to the law of the knife, is one of the more interesting of the features of the received from time to time at the executive bureau from James E. McCall, acting division superintendent of the Cotabato schools. Baseball was likewise made a big hit among the Moro kids, and Mr. McCall reports that this game has struck the Piang Agricultural school since last December "like an epidemic."

Mr. McCall cites one case where the son of one of the influential families in some way imposed upon a little orphan Tao boy, who immediately called for gloves, putting on one pair himself and offering the other to the Tao boy. After the contest, which lasted fifteen minutes, the two boys shook hands and walked away arm in arm.

The boys at the Piang school, Mr. McCall says, play baseball before breakfast and continue it during the day in spare time until dark.—Manila Times.

Whoever is responsible for the Shi in Yuan Shi Kai failed to inject enough to cause the old man to shi at a crown—Rock Hill Herald.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Little of this fragrant antiseptic. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no hawking, snuffing, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and catarrh sufferer needs. Don't stay snuffed-up and miserable.

It is just what every cold and relief comes instantly.

ANOTHER DEPUTY WAS APPOINTED ON FRIDAY

B. R. HILLIARD WILL KEEP
ORDER IN NORTHWEST-
ERN SECTION

WAS ONE OF TEN

Men Who Left Brogon Mills When
Settlement Was Reached in
Recent Strike.

Sheriff Ashley yesterday morning announced that he had appointed B. R. Hilliard deputy sheriff for Anderson county. While this appointment means that he is deputy for the entire county, the most of his work will be confined to that section around the C & A and Equinox mills. Lately there has been several cutting and shooting scrapes in this section and it has become a necessity that someone be stationed in that vicinity to preserve order. Mr. Hilliard took up his duties yesterday and last night Sheriff Ashley was telephoned by residents near the Equinox mill that the order was good, and that his action in appointing a deputy was appreciated.

Mr. Hilliard seems to be a good man for the position. He weighs over 200 pounds and is well acquainted with the people and conditions in his territory. He was one of the ten men who had to leave the Brogon mill when the agreement was reached between the management and the strikers.

REV. M'LONDON TO PREACH TWICE TODAY

WILL ALSO CONDUCT BIBLE
CLASS AT ST. JOHN'S
CHURCH

LEAVES MONDAY

Has Enjoyed Stay Here--Will Go
to Greenville, Spartanburg
and Rock Hill.

The Rev. Baxter F. McLendon of Bennettsville, who last summer conducted the most successful religious campaign ever held in Anderson, and who has been preaching at St. John's Methodist church for the past few nights, will deliver his last sermon in this city for the present tonight. Mr. McLendon came to Anderson on Wednesday and since that time in addition to his preaching, has been shaking the hands of his many friends and admirers. He will leave Monday for visits in Greenville, Spartanburg and Rock Hill.

This morning during the Sunday school hour at St. John's church the Rev. Mr. McLendon will talk to the Men's Bible class, and a large attendance is expected. This morning he will preach at 11:30 and again tonight at 7:30. Large crowds will be present at both services to hear him.

"I have been enjoying every minute of my stay here," stated the evangelist yesterday morning. "I like Anderson and often wish that I lived here. I remember all the kindness of the people last summer and am extremely thankful."

Weakened by Travel.
"Mrs. Brown, how did you like my sermon last Sunday?"
"Well, parson," replied the old man, "you see, I didn't have a fair chance to ride. Right in front of me was old Miss Smith and the rest of that cack with their mouths wide open just a swabber! down all the best of your sermon, and what reached me, parson, was pretty poor stuff, pretty poor stuff."

Bear This in Mind.
"I consider Chamberlain's Cough Remedy by far the best medicine in the market for colds and coughs," says Mrs. Albert Blosser, Lima, Ohio. Many others are of the same opinion. For sale by all dealers.

ANDERSON MAN HAS INVENTED CHOPPER

TO GET COTTON TO STAND
SOON AFTER PLANT
COMES UP

WILL BE SUCCESS

Says the Inventor, C. L. Town-
send--First One Now Being
Made and Will Be Tested.

Mr. Charles L. Townsend of the local Western Union office has an invention which will probably work wonders with the cotton farmers. It is a cotton chopper, and the inventor states that he has tested small models and that they have worked to perfection. Mr. Townsend is now making arrangements to have his invention manufactured and hopes to have the choppers on the market before next spring.

The cotton chopper seems to have all inventors stood off so far. Numerous machines have been manufactured but one of them have worked so that the farmers generally thought it advisable to invest their money in them. A machine of this kind is greatly needed, since it would mean a saving of thousands of dollars to southern farmers.

The plans of Mr. Townsend's invention shows that the machine will be mounted on a truck with two wheels and will be drawn by one horse. The machine includes a pair of chopping members which rotate transversely to the direction of travel of the truck, which will chop out the plants at intervals. Around these chopping members will be placed fenders or guards, which will be carried by the rotary knife blade carrying members. The blades and the fenders will be pendantly hung beneath the supporting structure of the chopper, so as to permit the chopping members to be moved into or out of an operative position, or to be swung transversely of the row or direction of the travel of the chopper to permit of the proper adjustment of the chopping elements to irregular places in the row of growing plants. All of this machinery is manipulated by levers, all of which are within easy reach of the driver. The blades are operated by means of gears running from the axle of the wheels, and follow in regular order.

These machines will be manufactured under patent pending, and the first one will be brought to Anderson to be tested out.

EX-GOVERNOR BLEASE SPOKE IN COURT HOUSE

Large Crowd of Admirers Greet-
ed Him Yesterday Afternoon
--In Good Condition.

Ex-Governor Cole L. Blease addressed a large crowd in the county court house yesterday afternoon. All of the lower floor was taken as well as the seats in the balcony. Mr. Blease came to Anderson to be present at the banquet given by the Red Men at Orr Mills last evening.

Mr. Blease showed his same old fire in his speech and was heartily cheered by his admirers. Much of his address was given to a discussion of present conditions. He spent last night in the city with friends.

A Concord School.
The entertainment planned for Concord school for Friday night will be held on Wednesday night.

A hotelkeeper in Torreon who charged \$6,500 for a dinner has been sent out of the country by Carranza. That sounds like a square meal at a national convention city.—Los Angeles Times.

LADIES! SECRET TO DARKEN GRAY HAIR

Bring Back its Color and Lustre
with Grandma's Sage
Tea Recipe.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; removes every bit of dandruff, stops scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While wavy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.
